

Charles Polart.

const role = "Full Stack Developer" · Angular · Node · Flutter

A dev who **thinks product, not just code**. 8 years from architecture to production — from a mobile social network to defense/aerospace embedded software. **AI, steered with rigor**, as an accelerator — from dev to shipped products.

YEARS OF EXPERIENCE

A→Z

ARCHITECTURE → PRODUCTION

AI

AI-AUGMENTED + AI PRODUCTS

full-stack

WEB · MOBILE · DESKTOP

[01] PROFILE

whoami

Full-stack developer, **8 years** across web, mobile (iOS & Android) and desktop — from architecture to production. Specialized in **Angular · Node · Flutter**, with a **defense / aerospace** background in C++/Qt (CEA, Airbus). I put **AI** at the core of my workflow and my products: I ship fast, without sacrificing maintainability or security.

[02] EXPERIENCE

experience/

Indie App Publisher

2025 → now

cross-platform apps + on-device AI · built, published & monetized

Murmure

INDIE PRODUCT · MACOS · ON-DEVICE AI

macOS menu-bar dictation, **100% local**: whisper.cpp STT + **local Qwen3 LLM (MLX)** that cleans the transcript (diff-guarded, meaning preserved), ~99 languages, hotkey → paste anywhere.

whisper.cpp · MLX · Qwen3 · Swift · Metal

Dian Dian · 点点

INDIE PRODUCT · IOS/ANDROID · PUBLISHED

Visual year tracker (12×31 grid), published & monetized (RevenueCat). Backend + real-time WebSocket sync.

Flutter · Express · PostgreSQL · WebSocket

Full Stack Developer — Freelance

02/2017 → now

solo tech lead or team reinforcement · architecture → production · 8+ yrs

Agora Nova · mobile app + API

PUBLIC-DEBATE SOCIAL NETWORK

iOS/Android app + REST API: verified accounts, polls, moderation, push. GDPR, CI/CD. **Shipped to stores.**

Flutter · Dart · Bun · PostgreSQL

SNCF · DigiDoc+

FRONT-END REBUILD · DOCUMENTARY PLATFORM

Rebuild of a critical app (thousands of agents): Elasticsearch full-text search, fine-grained permissions, validation workflow.

Angular · TypeScript · RxJS · Elasticsearch

Kiwidiag · real-estate marketplace

KIWIDIAG.COM · BACKEND

GraphQL API, surveyor/client matching, Stripe payments, geolocation, PDF reports.

Node.js · GraphQL · PostgreSQL · Docker

Leroy Merlin · e-commerce

FRONT + INTEGRATION · MAIN SITE

Front-end features and integration on the group's site — performance, accessibility.

Angular · Node.js · SCSS

Other work · web · desktop
Staffing site (capainterim.com) · NGO image platform · wiring-guidance software (C#/WPF) · scientific-PDF extractor (C++/Qt).

defense & aerospace · real-time · 2 yrs 6 mo

CEA · nuclear monitoring

3 SCIENTIFIC TOOLS

Features + maintenance: seismic / infrasound / hydroacoustic signal analysis (Workspace, Diva, Ceres).

C++Qt

Airbus Defence & Space · Magellan

SECURE COMMUNICATION

Features for a secure communication software over hostile wireless networks.

C++Qt

Engineering Internships — Thales · Dassault · R&D Tech

2016 → 2020

defense · aerospace · embedded

Thales · La Ruche

C# · C · 6 MO

Drone detection in Unity + radar simulator.

Sogitec · Dassault

C++ · 5 MO

Raytracing/rasterization rendering, flight simulation.

R&D Tech France

C · C++ · 7 MO

Embedded: lasers, drone parachute, robot arm.

[03] PERSONAL PROJECTS

personal/

Algo Trading Platform

PERSONAL · TRADING-BOT

Crypto trading (spot + futures): TypeScript strategies identical in backtest / paper / live, bots with risk guards.

BunTypeScriptHonoPostgreSQL

Path Tracing Engine

PERSONAL · 3D RENDERING

Photorealistic 3D rendering engine from scratch, multithreaded (.obj/.mtl, material editor, AABB trees).

C++QtOpenGL
